

## **ASFO 56<sup>TH</sup> ANNUAL SCIENTIFIC PROGRAM**

# **“LEADING THE WAY: CURRENT SYSTEMS AND NEW ADVANCES AFFECTING FORENSIC ODONTOLOGY”**

**February 10, 2026     8:00 am - 5:15 pm  
NEW ORLEANS, LA  
8 hours CEUs**

This one day program will feature a number of speakers across various aspects of forensic odontology with an emphasis on current and future technology assisting the forensic investigative process.

Confirmed presentation topics include:

- artificial intelligence
- current and future imaging techniques
- forensic odontology case presentations
- updates on dental age assessment methods
- introductions to several international forensic dental organizations.

The last session of the day will include a panel of forensic odontologists discussing future technology and AI in forensic dentistry. Questions from the floor will be encouraged to discuss the advancements in technology that will affect forensic odontology.

Registration fee for the one day program includes a breakfast, plated lunch and light snacks. The ASFO Annual General Meeting will be held midday.

The full program speaker list will be updated on the ASFO website as the agenda is finalized.
