

## Dr. Sakher Al-Qahtani Research Grant (\$3000)

This grant was initiated and is sustained by Dr. Sakher Al-Qahtani, whose significant contributions to the field of forensic odontology include dental age estimation via The London Atlas of Dental Development, international collaborative research, peer-reviewed publishing and human-rights focused legislation through governmental lobbying and collaboration with non-governmental organizations internationally.

To apply for this grant, applicants must submit the following information to the ASFO Research Committee:

- The name of the grant for which the applicant is applying (e.g., Dr. Sakher Al-Qahtani Research Grant)
- ASFO membership status of at least one researcher.
- Hypothesis to be studied by the research.
- Plan to prove the hypothesis.
- Timeline for completion of the research.
- Listing of the materials, methods, equipment and supplies that will be utilized in the research.
- Location where the research will be conducted.
- Complete contact information for each researcher.
- CV from each researcher.
- Listing of academic and professional affiliations.

This grant may be applied for at any time throughout the year. This grant will be awarded up to one time annually.
